(4) La Commission doit, avant de refuser de délivrer un permis, donner au requérant du permis ou à son représentant la plus large possibilité d'être entendu au sujet de la demande.

(5) Tout refus de délivrance d'un permis doit être fait par arrêté de la Commission.

NOTE: In most instances where a grain company operates two or more primary elevators at one location, the operations have been combined under a single manager. This has been aided by the trading of elevators between companies. As a result of a move towards greater economy and efficiency, the 1,717 elevators individually licensed as at August 1, 1988 reflect 1,666 'operating units'. The above table indicates this pattern, according to the major companies. The bracketed figures indicate the licensed elevators. It should be recognized that this statement reflects a constantly changing situation and is based upon the latest available data.

NOTA: Dans la plupart des cas, lorsqu'une compagnie de grain exploite deux silos primaires ou plus au même endroit, les exploitations sont combinées et relèvent d'un seul exploitant. L'échange de silos entre compagnies a favorisé cette politique. En vue d'accroître les avantages économiques et l'efficacité des opérations, les 1 717 silos agréés séparément au 1er août 1988 représentent 1 666 'unités d'exploitation'. Le tableau ci-dessus indique ce mode de développement pour les compagnies les plus considérables. Les chiffres entre parenthèses indiquent les silos agréés. Il faut se rappeler que c'est une situation qui évolue sans cesse et qui est fondée sur les plus récentes données disponibles.

"Decrease" In The Number of Primary Elevator Licences"
Effective the 1984-85 crop year the Canadian Grain Commission allowed operators of primary elevators to licence two or more adjacent facilities, which were under the control of a single manager, as a single primary elevator.

As a result of this policy and the continued rationalization of the primary elevator system, the number of licences issued declined dramatically, going from 2,800 in 1983-84 to 1,967 on August 1, 1984.

Dimunition du nombre de permis de silos primaires
Dès le début de la campagne agricole 1984-1985, la Commission canadienne des grains a accepté de délivrer un seul permis aux exploitants de deux silos ou plus lorsque ceux-ci étaient gérés par une seule personne et étaient attenants.

Suite à cette nouvelle politique et à la consolidation du réseau de silos primaires, le nombre de silos agréés passa de 2 800 en 1983-84 à 1 967 au 1er août 1984.
